Part X - FIN 48 Footnote

At the time this return was filed, the audited financial statements had not been issued. The FIN 48 (ASC 740) footnote below is from the prior year financial statements.

The Hospital and Foundation are not-for-profit corporations and have been recognized as tax-exempt pursuant to Section 501(c)(3) of the Internal Revenue Code. Network is considered a disregarded entity of the Hospital. The Hospital applies accounting policies that prescribe when to recognize and how to measure the financial statement effects of income tax positions taken or expected to be taken on its income tax returns. These rules require management to evaluate the likelihood that, upon examination by the relevant taxing jurisdictions, those income tax positions would be sustained. Based on that evaluation, the Hospital only recognizes the maximum benefit of each income tax position that is more than 50% likely of being sustained. To the extent that all or a portion of the benefits of an income tax position are not recognized, a liability would be recognized for the unrecognized benefits, along with any interest and penalties that would result from disallowance of the position. Should any such penalties that would result from disallowance of the position. Should any such penalties and interest be incurred, they would be recognized as operating expenses. Based on the results of management's evaluation, no liability is recognized in the accompanying balance sheet for unrecognized income tax positions. Further, no interest or penalties have been accrued or charged to expenses.

Part XIII Supplemental Information (continued)

as of March 31, 2024 or 2023 or for the years then ended. The Hospital's tax returns are subject to possible examination by the taxing authorities. For federal income tax purposes, the returns essentially remain open for the possible examination for a period of three years after the respective filing deadlines of those returns.

Facility 1, Taylor Regional Hospital - Part V, Line 3e

By triangulating findings across primary and secondary data sources, the CHNA team created a community health profile for the service area of the hospital. The community profile highlighted major health issues in the community, barriers to accessing care and to managing health conditions, important areas to improve the health of the community, and additional services needed. Based on the findings, community members identified mental health, hypertension, diabetes, overweight/obesity, cancer and aging related health issues as major health problems in the community. Community members expressed the need for specialty care services such as mental health services, OB-GYN, dermatologist, and improved access to care. Community members also highlighted the need for additional services, most often requesting repair and opening of the pool at the wellness center, recruitment and retention of doctors and operating Taylor Express outside of the working hours.

Facility 1, Taylor Regional Hospital - Part V, Line 5

A CHNA team was formed, comprising of a UGA COP faculty, a graduate student and a UGA Archway Public Service and Outreach (PSO) professional, who worked in the community. In order to engage stakeholders, a CHNA Steering Committee and a Community Advisory Committee were formed. The CHNA Steering Committee served as the guide for the entire CHNA process and led efforts to encourage community's participation and engagement in the CHNA process. The Community Advisory Committee was responsible for recruiting participants for survey and focus groups and providing feedback on the data collected. The contribution from the two committees and the UGA Archway PSO professional fostered collaboration between community members and the UGA COP team to conduct the CHNA.

The CHNA team employed the five-step process in completing the CHNA. In the first step, the community, or service area for Taylor Regional Hospital was identified and it included the counties of Pulaski, Bleckley, Dooly, and Wilcox. After defining the community, primary and secondary data was collected. The CHNA team pulled county level data for the four counties within the identified service area. Sources for secondary data included the Georgia County Health Rankings, U.S. Census Bureau, Georgia Department of Public Health's Online Analytical Statistical Information System (OASIS), and the Annie E. Casey Foundation Kids Count data. Secondary data was exported into Excel for county level and state level comparisons. Summaries were created for each county which generated a county health profile and compared health outcomes to other counties, Georgia, and national statistics in order to identify potential areas for improvement.

Following the collection of secondary data, the CHNA team collected primary data from community members. Six focus groups were conducted with twenty-four community stakeholders to gain an in-depth understanding of overall community health status and needs, health behaviors, hospital use, and COVID-19 impact. Focus group participants varied in expertise and represented diverse community views. All focus groups were recorded and transcribed by the CHNA team. The CHNA team summarized the responses from the focus groups and identified key themes. In addition to the qualitative data collection, the CHNA team developed a community survey to identify

individual health status, COVID-19 diagnosis, health behaviors, hospital use, and views on overall community health status and needs. Both online and paper surveys were used to collect data from the participants. An online survey link and QR code were sent by the PSO professional via email to the community members. Paper surveys were made available if participants preferred the paper survey to the electronic survey. Survey results were analyzed to produce descriptive statistics and cross-tabulations were run to examine relationships between selected demographics and health outcomes.

Facility 1, Taylor Regional Hospital - Part V, Line 11

The organization provides many community benefit programs that address the health and social determinants of health throughout the County and surrounding communities. Some of the needs identified in the 2022 CHNA, such as providing mental health treatments and other specialty services, are beyond the financial resources and/or scope of services of the hospital. Collaboration with other providers will seek improvement strategies for mental health and other significant health needs of the community. Providing transportation is also beyond the financial ability of the hospital, but the hospital will serve as a resource to increase community knowledge of available alternatives.

Part I, Line 7g - Subsidized Health Services Explanation

Part I, line 7g - Actual charges for each physician clinic are traced and reported using the organization's accounting system. The costs for these clinics totaled \$4,367,178 for the fiscal year. The reported subsidy includes Medicaid revenues from patients receiving care in a clinic. The amount reported on line 7b excludes the revenues (and costs) from Medicaid patients receiving care in a clinic.

Part I, Line 7 - Costing Methodology Explanation

The data reported in this area of Schedule H is reported as instructed by the Catholic Health Association's "A Guide for Planning and Reporting Community Benefits, 2008". The costs for Part I, line 7a, 7b and 7c were calculated using the Ratio of Costs to Charges calculated using Worksheet 2 in the IRS instructions to the Form 990 for hospital only costs. The cost to charge ratio and the Medicaid Shortfall calculations are adjusted for hospital based provider taxes and UPL revenues. The subsidized health services were calculated using costs identified through the organization's cost accounting system.

Part III, Line 2 - Bad Debt Expense Methodology

Amounts included on Part III line 2 represent the amount of charges considered uncollectible. Pursuant to ASU No. 2014-09 (Topic 606) discussed in more detail below, the amount identified as bad debt on Schedule H, Part II, Line 2 primarily represents amounts estimated at the transaction date that are considered a price concession.

Part III, Line 4 - Bad Debt Expense Footnote to Financial Statements

At the time this return was required to be filed, the audited financial statements had not been issued. Following is the prior year footnote - In 2021, the Hospital adopted ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606), which is a new comprehensive revenue recognition standard. Upon adoption, the majority of what was previously classified as provision for bad debts and presented as a reduction to net patient service revenue on the statement of operations is now treated as a price concession that reduces the transaction price, which is reported as net patient service revenue. Changes in credit issues not assessed at the date of service, are recognized as bad debt expense and included as a component of operating expenses on the statement of operations. The new standard also

requires enhanced disclosures related to the disaggregation of revenue and significant judgments made in measurement and recognition. the adoption of this guidance did not materially impact total operating revenues, excess revenues (expenses), or net assets. Please see Footnote 2 for a detailed discussion of Net Patient Service Revenue which includes a discussion of prices concessions, bad debts and other revenue adjustments. See Note 3 for a summary of revenue adjustments (including charity care and uninsured discounts) by type.

Part III, Line 8 - Medicare Explanation

Medicare allowable costs are computed in accordance with cost reporting methodologies utilized on the Medicare Cost Report and in accordance with related regulations. Indirect costs are allocated to direct service areas using the most appropriate statistical basis. The Medicare program pays at amounts which are less than the cost of providing services. Any cost not reimbursed by Medicare is borne by Hospital which eases the burden to the government for the provision of healthcare under the Medicare Program.

Part III, Line 9b - Collection Practices Explanation

Initial screenings of all inpatient, emergency, and surgery encounters, as well as most outpatient visits, are conducted by Patient Access Services in order to identify any available insurance or other coverage for each patient. Patient Access Services explains and provides the necessary Charity Care Program's application with the patient and their family. Patients with total charges exceeding \$1,500 are referred to Taylor's contracted counselor. Counselor assists the patient/family with identifying any programs for which the patient/service may qualify (including Medicaid, state children's health insurance program (SCHIP), private or government insurance coverage, and charity assistance). If the family cannot be timely located or is uncooperative, related accounts are transferred to an internal collection department for further attempts to obtain payment or, if the patient may qualify for assistance, to secure a financial assistance application. The organization's debt collection policy
